DELAGET
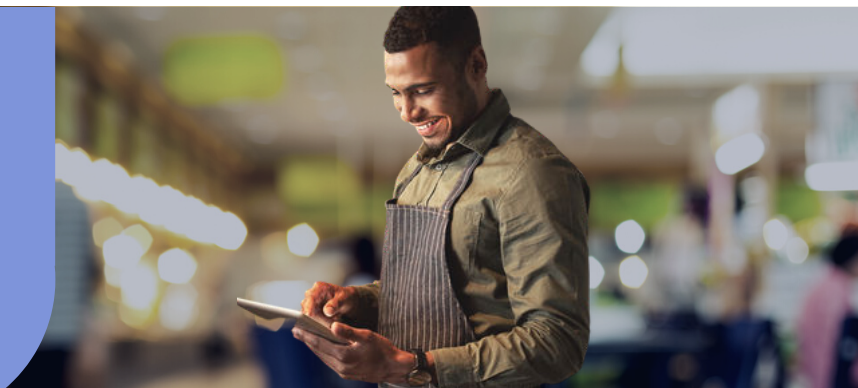

Helping restaurants run a more profitable business

What problem does Delaget Solve?

Login and system overload! On average, restaurant operators have 10-20 systems in a single location that they need data from daily. On top of that, over 82% of QSR franchisees own multiple units. So what's the best way to save time and make data access a breeze?

Instead of manually consolidating multiple reports, Delaget securely sends operational data to intuitive dashboards, configurable to your unique needs!
