

Delaget + ADP Workforce Now®

Payroll automation made easy

Available for:

- Taco Bell
- KFC
- Pizza Hut
- Sonic
- IHOP
- Burger King

And other
leading brands!

ADP and Delaget make managing payroll easy.

With over 20 years of serving the restaurant industry, Delaget makes data easy to gather and understand through seamless data automation and various restaurant analytics and reporting tools. That's why Delaget has partnered with ADP, the largest payroll company in the U.S., to deliver a seamless integration that automates payroll batch exports and reduces manual data entry and human error. For the ADP Workforce Now client, there are no setup or additional fees for the integration.

Delaget + ADP Workforce Now®

Automating the payroll process with Delaget and ADP Workforce Now® significantly reduces the time and effort required for processing payroll—and as an ADP client, **the integration is available at no additional cost to your organization.**

Automation and synchronization of timekeeping and tips data between point-of-sale (POS) or back-of-house (BOH) and ADP streamlines payroll processes, minimizes manual tasks, reduces human error, and frees up payroll personnel to assist other employees and management with their payroll inquiries.

Put Payroll Automation to Work for You!

With Delaget solutions and ADP, clients can:

- Automate manual payroll batch processing, so it takes minutes compared to an industry-average 12 hours
- Benefit from zero cost for payroll automation, compared to options from other solution providers
- Leverage the expertise of a restaurant-focused onboarding team to help optimize your payroll process

Save Time and Money with ADP and Delaget

- **Streamline restaurant operations.** Reduce manual entry and increase accuracy by automating data flow from POS and BOH to ADP Workforce Now payroll solution
- **Automate payroll periods** by consolidating payroll validation into one platform. Automatically populate your pay grid from your point-of-sale (POS) or back-of-house (BOH) system
- **Dedicated integration support and service.** One-on-one support guides you through every step as you implement and manage your Delaget connector

Seamless Data Flow from your Point of Sale (POS) and Back of House (BOH) Systems

And more integrations are added monthly! Don't see yours listed, ask us about it.

The cost savings add up!

Saving time and money

Manual payroll processing can cost teams significant time and labor. Let's take a closer look at the time and labor cost savings that can be achieved through automation.

Time to process manually

According to the American Payroll Association, the average time to process a payroll batch is around 12 hours.

Labor cost

The average pay of a payroll processor in 2023 equates to about \$27/hour according to Glassdoor.

Time and cost savings

The automation of payroll processing through Delaget + ADP could save payroll staff approximately 24 hours and over \$600 in labor costs per bi-weekly period.*

* Actual results vary
