make data easier to access
than ever

Who is Delaget?

Delaget supports technology partners through pre-built integrations, reducing their data access from many sources to a single access point. Delaget is the leader in restaurant data solutions, providing operators and teams the platforms they need to streamline all their data into one easy-to-use dashboard that provides a view of critical operational data — saving time and precious resources.

Who is Delaget's primary market?

Delaget serves the restaurant industry in the US, with a focus on multi-unit operators of QSR, Fast-Casual, and Full-Service restaurants.

How do Delaget Solutions help restaurants?

Delaget's API provides the employee time and tips data needed to power the rapid!'s earned wage access solution. With Delaget's pre-built integrations to restaurant systems, rapid! is able to service restaurants quicker while removing manual data transfer and human error by reliably and securely automating the flow of data.

How does Delaget simplify data for rapid!?

Delaget has built integrations with many top restaurant point-of-sale and back-of-house systems to simplify the secure transfer of time and tips data. Instead of navigating the patchwork quilt of onboarding system integrations, Delaget takes care of that for you! Delaget will support you through your sales cycle and onboarding to speed up your sale and make your clients happy.
